

Horizon Europe 2021 - 2027

[Horizon Europe](#) is the EU's €95.5 billion research and innovation programme for 2021-2027 and the successor of Horizon 2020. This new program shall consolidate the results and success of Horizon 2020 and shall allow the EU to remain at the forefront of research and innovation worldwide.

Horizon Europe represents therefore the most ambitious research and innovation program ever. Today's work programme is based on the [Horizon Europe's Strategic Plan](#), which was adopted in March 2021 to set the EU's research and innovation priorities for 2021-2024.

Most of the funding is allocated based on competitive calls for proposals, set out in work programmes. New funding opportunities have already opened up since early 2021: in February the Commission launched the first [European Research Council calls](#) under Horizon Europe and in March it launched the new [European Innovation Council](#). Furthermore, in April, it quickly [mobilised €123 million](#) for research and innovation into coronavirus variants.

The other first calls for proposals will open on the Commission's Funding and Tenders Portal on 22 June. The [European Research and Innovation Days on 23 and 24 June](#) mark the occasion to discuss Horizon Europe amongst policymakers, researchers, innovators and citizens. [Horizon](#)

[Europe Information Days](#) and [Brokerage events](#) targeting potential applicants take place between 28 June and 9 July.

Bridging the research and innovation gap with the Western Balkans

A Western Balkans look at the new Horizon Europe

With Horizon Europe, the European research community, research organisations and our citizens can count on the world's largest research and innovation programme," said Commissioner Mariya Gabriel. The mobilisation of researchers and innovators across the Europe Union and the region is crucial. The Western Balkans is no exception. Horizon Europe will boost efforts to strengthen their R&I capacity and connections with the EU as an important step towards EU accession...
