## Invitation to authors

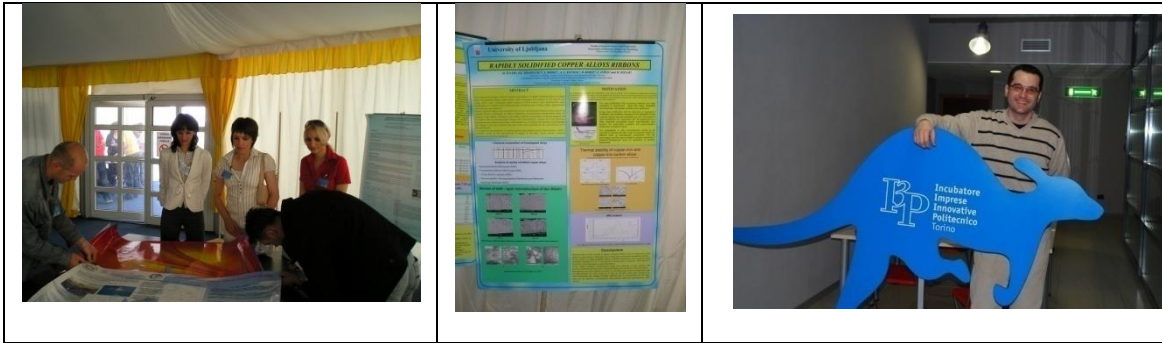

### Introduction

The Innovation and Entrepreneurship Centre at the University of Zenica and the Business Service Centre of the ZE-DO Canton Government organize the **6th Student Conference TECHNO-EDUCA 2012: "WITH ENTREPRENEURIAL IDEAS TOWARDS BETTER FUTURE"**, which will be held on November 10-11, 2011, at the University of Zenica.

We live in a time when the labor market is undergoing a certain transition. The main characteristic of the transition process is focused on the deviation from the classical concept in which it is enough that managers possess reproductive knowledge and human, conceptual and technical skills. The labor market today relies increasingly on advanced levels of skills and transversal competence. Therefore, higher education should teach students the advanced knowledge, skills and competence that are necessary in their professional lives. The possibility of employment of an individual will fully depend on the opportunities in the labor market that is constantly changing. Based on these criteria, we have designed the conference *TECHNO-EDUCA 2012* that aims to provide students of engineering, economic and other related faculties to show their competence, and present themselves on the labor market in the best light.

### Conference topics

**The Student Conference TECHNO-EDUCA 2012: "WITH ENTREPRENEURIAL IDEAS TOWARDS BETTER FUTURE"** focuses on providing technical assistance to entrepreneurs in the sector of large economic systems, and small and medium-sized enterprises (SMEs). It aims to help the entrepreneurs overcome the serious falling behind both in terms of technology and economy, that has emerged as the result of more than a decade of absence of propulsive development of metal processing, wood processing and other technologies, trends and movements. THE CONFERENCE IS INTENDED FOR STUDENTS OF ENGINEERING AND ECONOMIC FACULTIES AND ALL OTHER STUDENTS PURSUING THE IDEA OF ECONOMIC PROSPERITY OF THE COMMUNITY.

**TECHNO-EDUCA 2012** will take place at the Hall of the Faculty of Metallurgy and Materials and Reading room of the Institute of Metallurgy. The schedule is as follows:

**7<sup>th</sup> November 2012:**

♦ **Round table:** Organisation and realisation of the doctoral studies – state and perspective (Reading room of the Institute of Metallurgy of the UNZE between 14,00-18,00 h).

and

**8<sup>th</sup> November 2012:**

♦ **Conference:** Students` presentations 11.00-13.00 h and 14.00-18.00 h: Presentation of the papers written by students and teaching staff of engineering and economic faculties from former Yugoslavia and the region, which represent the results of certain scientific and research work and projects, as well as of seminar papers, graduate and master theses and other research work, concerning modern day technology and its relevance to business (oral presentation or poster). Presentations may be delivered orally or in the form of a poster.

**Invitation to students and their professors/teaching assistants**

This is an invitation to **students and teaching staff** of higher education and scientific and research institutions from the region of Southeast Europe and other to join this special conference and present and share the results of their joint scientific and expert work, which is of interest to the whole community.

**Only the papers that mandatorily involve participation of students, either as the first signed authors or presenters, will be accepted.**

A journal of papers (or abstracts) will be published as a part of the Seminar and the Conference, and full papers will be published in electronic form (written + CD material).

**The conference participants, who have submitted their papers, are exempted from paying the registration fee.**

**During the visit to Vitez Business Zone, a JOB-FAIR (an employment fair) will take place as well, and this will provide students and graduates with the ticket to the world of employment, e.g. interviews with company representatives, chambers of commerce, associations of entrepreneurs, etc.**
