Follow up Teacher Study

I signed an unlimited contract as a Professor at my school one month ago. This happens very rarely. Internationalisation was an important factor for this.

My teacher mobilities inspired me innovating my own teaching and also identifying and piloting new methodologies.

One of the outcomes is a common big e-learning platform with learning materials which we developed together.

We developed a transnational online-course within CEEPUS mobility - a very innovative teaching method

CEEPUS is an important career factor

I consider myself as an icebreaker. After my teacher mobility also other people decided to go to our partner universities

I have published scientific articles with my colleagues

CEEPUS supports concrete mobilities which otherwise would not take place – “without it, it would not happen”.

- **approx. 1/3 is already operative**, approx. 2/3 are currently being developed
- **Pls note** that each network can operate several JPs and each JP can have more than one degree program
