

# CERIC-ERIC Open for Opportunities

Jana Kolar

# About CERIC-ERIC

A **distributed RI**, with one single entry point to nearly 50 complementary instruments and techniques for multidisciplinary research in all fields of **advanced materials, biomaterials and nanotechnology**.

One facility per country **no transfer of money**, but transfer and share of values **free and open access** by quality selection

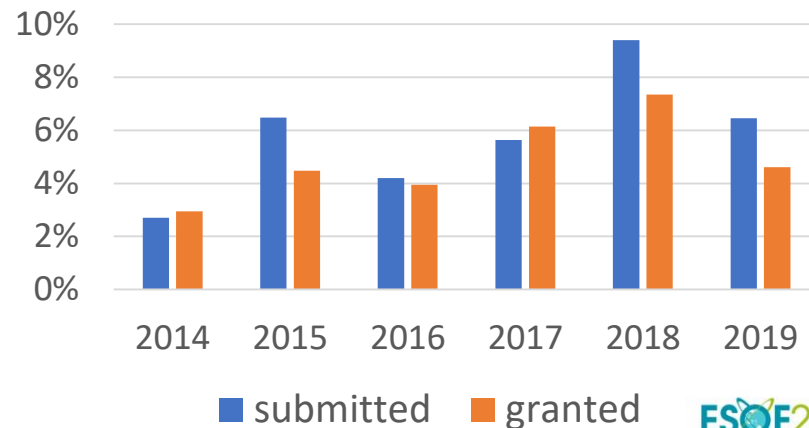

CERIC's operation is supported by:  
A financial contribution of the hosting country, Italy  
**In-kind contributions** by the other Members  
EC co-funds a support project Accelerate

# CERIC – opportunities for WB

- Membership (Enhancing further the facilities through integration and open access)
  - Croatia is a member and contributes ion beams of RBI
  - Serbia is a member, no facility yet
- Users (Free open access to top level RIs, often not available in WB)
- Training
- Support in preparation of proposals
- PhD

submitted and granted proposals form WB

# Beyond CERIC - Role of RIs in scientific integration of WB

- Self-standing RIs in WB (e.g. SEEIIST)
  - Integration through the international user community
  - Collaboration with other RIs
- Membership
  - Serbia is a member in CESSDA, DARIAH and CERIC
  - North Macedonia is a member in CESSDA
- Users
- Broadening of the user base (Info days, trainings, support in preparation of proposals)
- PhD (Elettra WB Balkan scholarships)
  
- Renewed European Research Area - Priority Inclusiveness
