BOSNIA AND HERZEGOVINA -The COST Programme Candidate status opens the door to innovation, foreign investment and job creation

[Status kandidata otvara vrata za inovacije, strana ulaganja i otvaranje radnih mjesta - kiseljak.info](https://www.cost.eu/bosnia-herzegovina)

This COST Action is one of the best things that happens to me: allowing me to increase my self-esteem and foster both general and professional development. As an early-stage researcher, I have been trusted to manage and work with an extraordinary group of highly motivated people focusing on youth development.

Dr Alen Mujčinović, Assistant Professor,
Faculty of Agriculture and Food Sciences,
University of Sarajevo

Participating in COST Actions opens opportunities for collaboration with peers from other European countries, sharing knowledge and expertise, and gaining access to cutting-edge research facilities and technologies. This helps enhance the quality and relevance of the research. It raises the profile of BH science and innovation on the international stage and creates opportunities to attract funding and investment for research and innovation activities in Bosnia and Herzegovina, both from European and domestic sources.

Dr Lejla Gurbeta Pokvić, Doctor of Philosophy in Genetics and Biomedical Engineering,
Verlab Research Institute, Sarajevo
